Master Fund Ratings

Process

The fund uses an integrated top-down and bottom-up process with a thematic overlay.

The thematic overlay seeks to identify factors which may influence markets, with themes broadly categorised as:

- Likely to occur in the next 12-18 months
- Multi-country, multi-year themes
- Single country themes.

Each theme identifies sectors and stocks likely to be impacted and estimates a likely time horizon. They sit in the background as signposts to note or follow, rather than prescriptive channels into which all stocks must fit.
