

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Marlborough Multi Cap Income Fund Class P Shares

a sub-fund of the Marlborough No2 OEIC (ISIN Income GB00B908BY75, Accumulation GB00B907VX32)

This fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The Marlborough Multi Cap Income Fund aims to seek to generate an attractive and growing level of dividend income in addition to long term capital growth by investing in a diversified portfolio of equities predominantly listed in the UK. The fund will invest primarily in the shares of small to medium capitalisation companies where both capital and dividend growth are anticipated.

The fund may also invest in, but is not limited to, the shares of large capitalisation companies as well as cash and near cash.

It is intended that the fund will be managed so that it is eligible for quotation within the Investment Association's UK Equity Income

Sector and will have at least 80% exposure to UK equities.

The Investment Adviser to the fund decides which investments to buy and when within the constraints of the objectives and policy.

The Marlborough Multi Cap Income Fund pays income. If you wish to receive this please tell us. If you do not want to receive income you will be given accumulation shares which means income is invested back into the fund and reflected in the price of your shares.

You can sell all or part of your investment on a daily basis subject to the minimum holding requirements.

Risk and Reward Profile

The risk and reward indicator above aims to provide you with an indication of the overall risk and reward profile of the fund. It is calculated based on the volatility of the fund using weekly historic returns over the last five years. If five years data is not available for a fund, the returns of a representative portfolio are used.

As the risk and reward indicator is calculated based on historical data it may not be a reliable indication of the future risk profile of the fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This fund has been measured as 4 because it has experienced moderate volatility historically. The fund's volatility is affected by various factors including:

- The fund will be exposed to stock markets. Stock market prices can move irrationally and be affected unpredictably by diverse

factors, including political and economic events.

- The fund will invest in the shares of smaller companies which are more volatile over shorter time periods.

The fund invests mainly in The UK therefore investments will be vulnerable to sentiment in that market which may strongly affect The value of The fund.

Risks which are not adequately captured by the risk indicator include:

- In certain market conditions some assets in the fund may be less liquid and therefore more difficult to sell at their true value or in a timely manner.

All or part of the fees and expenses may be charged to the capital of the fund rather than being deducted from income. Future capital growth may be constrained as a result of this.

A more detailed description of the risks that apply to this fund can be found in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 31/07/2017. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 21 - 23 of the fund's Prospectus, which is available at www.marlbroughfunds.com.
