

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Marlborough Technology Fund Class A Shares

A Sub-fund of the Marlborough Technology Fund OEIC (ISIN Accumulation GB0032832841)

This Fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The aim of the Fund is to grow the value of your holdings through capital growth, which is profit on an investment, over a period of at least 5 years. However, there is no certainty this will be achieved.

At least 80% of the Fund will invest in shares in technology and telecommunication companies listed on stock exchanges globally.

The Fund can hold up to 75% in shares issued in any single country. It is expected that at least 50% of the Fund will be invested in a mixture of companies listed in North America or UK markets.

The Fund is actively managed, which means the Investment Manager decides which investments to buy and sell. There is a bias within the investment selection toward smaller companies. The aim is to identify:

- companies whose future prospects do not appear to be fully reflected yet in the current stock market price;
- companies that are expected to perform better than their market sector or the market as a whole; or
- recovery situations where change in a company's management or strategy can be expected to lead to an improvement in its performance.

If, as a result of a corporate action or change of situation of an investment, the Fund results in holding a corporate bond within the portfolio, the Fund will not be

obliged to sell it.

The Fund will normally hold a cash balance to enable ready settlement of liabilities (including redemption of shares) and efficient management of the Fund both generally and in relation to strategic objectives. In extreme market conditions this may be up to 20% of the Fund but it is anticipated this will be infrequent.

For cash management purposes, the Fund may also hold short dated government bonds.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors' as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA Technology & Telecommunications sector. You may want to assess the Fund's performance compared to the performance of this sector.

Or, you may wish to compare it with the performance of the FTSE Techmark All Share Index which includes companies which operate in the same sector as the Fund.

The Fund does not pay income. Instead, any income received by the Fund is reinvested back into the Fund.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse

factors, including political and economic events.

- The Fund invests in smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment.

- The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of your investment.

- The Fund invests mainly in the technology sector therefore investments will be vulnerable to sentiment in that sector. The Fund may therefore be more volatile than more diversified Funds.

- In certain market conditions some assets may be less predictable than usual. This may make it harder to sell at a desired price and/or in a timely manner.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 30/04/2020. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 7 of the Fund's Prospectus, which is available at www.marlbroughfunds.com.

One-off charges taken before or after you invest

Entry Charge	5.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over each year

Ongoing Charges	1.74%
-----------------	-------

Charges taken from the fund under certain conditions

Performance Fee	None
-----------------	------

Past Performance

Historic performance to 31 December 2019

	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019
■ Fund	43.2	-10.2	20.9	55.0	3.4	-6.1	21.1	11.0	8.3	8.6
■ Benchmark	23.3	-3.6	8.6	27.5	12.8	7.8	25.4	23.6	1.1	31.1

Past performance is not a guide to future returns.

Performance figures are calculated in Sterling on a net asset value basis and include net reinvested income. They include the annual management charge and all other Fund expenses but do not include the entry charge.

The Fund was launched on 19 May 2003.

This Share Class was launched on 19 May 2003.

Benchmark: IA Technology & Telecommunications.
