

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Marlborough European Multi-Cap Fund Class B Units

(ISIN Income GB00B820VG60)

This Fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The aim of the Fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

At least 80% of the Fund will be invested in the shares of companies listed on European stock markets (excluding the UK). Of this, up to 90% will be in smaller companies. The Investment Manager defines smaller companies as companies in the bottom 20% of the market cap, meaning the 20% smallest listed companies by size. The remainder will be in Mid and Large cap companies.

The Fund is actively managed, which means the investment manager decides which investments to buy or sell and when.

The Fund may also invest in other types of security which are linked to the performance of a company, such as; investment grade bonds, which are loans typically issued by companies and governments, where the issuer has a higher capacity to repay the debt; bonds which may be converted into shares (known as convertible bonds); and preference shares. A small amount may be held in UK companies to allow for changes which may be made to existing investments, for example following a restructure.

In addition, the Fund may invest in other funds (including investment trusts) which offer exposure to European companies and from time to time, may hold a small amount in investment grade bonds.

The Fund will normally hold an amount of cash to enable ready settlement of

liabilities and efficient management of the Fund both generally and in relation to strategic objectives however may hold higher cash balances in certain circumstances, such as volatile market conditions.

The Fund may also hold money market instruments, a type of short-term loan, and funds that invest in these instruments as an alternative to holding cash.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA Europe Excluding UK sector. You may want to assess the Fund's performance compared to the performance of this sector.

The Marlborough European Multi-Cap Fund pays income. If you wish to receive this please tell us. If you do not want to receive income we will reinvest it to buy more units for you.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 10 years.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets and market conditions can change

rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

- The Fund invests in smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment.

- The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of your investment.

- In certain market conditions some assets may be less predictable than usual. This may make it harder to sell at a desired price and/or in a timely manner.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 10/03/2020. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 6 of the Fund's Prospectus, which is available at www.marlbroughfunds.com.

One-off charges taken before or after you invest

Entry Charge	5.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over each year

Ongoing Charges	1.08%
-----------------	-------

Charges taken from the fund under certain conditions

Performance Fee	None
-----------------	------

Past Performance

Historic performance to 31 December 2019

Past performance is not a guide to future returns.

Performance figures are calculated in Sterling on a net asset value basis and include net reinvested income. They include the annual management charge and all other Fund expenses but do not include the entry charge.

The Fund was launched on 22 May 1986.

This Unit Class was launched on 31 December 2012 and first priced on 2 January 2013. In the period to 02/01/2013, past performance is represented by the Fund's A class units.

Benchmark: IA Europe Excluding UK.
