Aims

The aim of the Fund is to provide income, that is, money paid out from an investment as interest, with the potential for some capital growth, that is, to increase the value of your investment. The Fund aims to outperform the average of the IA Sterling Corporate Bond sector over any 5 year period, after any charges have been taken out of the Fund. However, there is no certainty this will be achieved.

Credit Currency Breakdown

Credit Quality Profile

Credit Maturity Profile

The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested. Investments in fixed interest securities are subject to market and credit risk and will be impacted by interest rates. The Fund may use derivatives to protect the value of the Fund's assets and for investment purposes which mean that for regulatory purposes it will be regarded as a high volatility fund, however the fund's use of derivatives will have the overall intention of reducing volatility. To ensure that the principal objective of providing a high level of income can be met, 50% of the annual Manager's charge is deducted from capital rather than income. Future capital growth may be constrained as a result. You are required to read the Key Investor Information Document (KIID) before making an investment. The KIID and prospectus for all funds are available free of charge at www.marlboroughfunds.com or by calling 0808 145 2500. Data accurate as of 01/09/2020. Factsheet produced by FundsLibrary.
