Marlborough Nano-Cap Growth Fund Class P Shares

A Sub-fund of the Marlborough No2 OEIC (ISIN Accumulation GB00BF2ZV048)

This Fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The aim of the Fund is to increase the value of your investment by more than any increase in the FTSE SmallCap Index (ex-Investment Companies) over any 10 year period, however there is no certainty this will be achieved.

At least 80% of the Fund will be invested in the shares of very small companies and investment trusts listed on UK stock exchanges. These are companies whose market capitalisation (the market value of a company's shares) is £100m or less at the time the initial purchase is made.

The aim of the investment team is to identify companies which they believe show good long-term growth potential or which appear to be under-valued given their future prospects.

The team consider economic and market conditions but the main focus is on individual company analysis and selection.

Following the same investment philosophy the Fund may also invest in companies which are listed on overseas stock exchanges, the shares of larger companies, other securities which offer returns linked to the company performance, such as, preference shares, convertible bonds and warrants, and unquoted companies.

The Fund is actively managed, which means the investment manager decides which investments to buy or sell and when. The Fund invests in a diverse portfolio of investments and is not constrained by any industry or sector.

The Fund may hold cash, government bonds and money market instruments (short term loans typically issued by governments and banks) to enable ready settlement of liabilities (including the redemption of units), for the efficient management of the Fund and in order to meet its objective.

The performance benchmark is the level of performance the Fund aims to deliver however there is no certainty this will be achieved.

The FTSE SmallCap Index (ex-Investment Companies) has been chosen as the performance target as it has similar aims and objectives to the Fund.

The Marlborough Nano-Cap Growth Fund does not pay income. Instead, any income received by the Fund is reinvested back into the Fund.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets and market conditions can change

rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

- The Fund invests in smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment.

- The Fund invests mainly in the UK therefore investments will be vulnerable to sentiment in that market which may strongly affect the value of the Fund.

- In certain market conditions some assets may be less predictable than usual. This may make it harder to sell at a desired price and/or in a timely manner.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 31/01/2020. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.
