WHAT IS A UNIT TRUST?

A unit trust is an authorised investment fund created in the legal structure of a trust, whose founding document is a trust deed to which the trustee and the firm that manages the fund are party. IFSL acts as Authorised Fund Manager (AFM) to these funds.

WHAT IS AN OEIC?

An open-ended fund that takes the legal form of a company. Such a fund is commonly known as an 'OEIC' for short. Technically an OEIC created under the UK's regulatory framework for such funds is called an 'Investment Company With Variable Capital'. IFSL acts as Authorised Corporate Director (ACD) to these funds.

1.

A Junior ISA is also available should you wish to invest on behalf of an eligible child. Further details are provided in section 5 of the IFSL Terms and Conditions (Ts&Cs). The minimum investment for each fund can be found in the funds Prospectus.

Please note we can only accept sterling cheques.

For details of how to invest in an ISA, please read the ISA section on page 8. You may buy further units/shares in the same way, by using the Top Up form available on our website www.ifslfunds.com or by instructing us using the

methods referred to in section 7.3 of the Ts&Cs. Alternatively, you may telephone our Dealing Team free on 0808 164 5458 for further information. Calls to this line are recorded for your protection. It is important that you read the latest Key Investor Information Document (KIID) for a fund before you make any investment or top-up. We will ask you to confirm that you have done this before accepting an investment from you.

What happens next?

We will place your deal in accordance with section 7 of the Ts&Cs. Your investment will then be made in your chosen fund(s) at the next available valuation point and we will send you a contract note. This will give you all the details about your investment such as the number of units/shares you receive, the price you paid and the date your investment was made. You should keep this document safe for future reference. For details of the valuation point for each fund please refer to the relevant Prospectus.

Can I switch between different funds?

Yes, you may switch from one IFSL Marlborough fund to another as set out in section 9 of the Ts&Cs.

Regular Savings

You may invest in the funds by making regular monthly contributions by Direct Debit. Details concerning the setting up and operation of a regular savings plan can be found at sections 7.27 to 7.33 (inclusive) of the Ts&Cs. To set up a regular savings plan please complete a 'Regular Savings and Top Up Application Form', which is located at www.ifslfunds.com and send it by post to your Professional Adviser or IFSL as directed by section 7.28 of the Ts&Cs.

How do I sell my units/shares?

You can instruct us to sell some or all of your units/shares at any time, either by writing to us or by calling our Dealing team free on 0808 164 5458. Instructions to sell units/shares are governed by sections 7.3 to 7.13 (inclusive) of the Ts&Cs and further details can be found in these sections of the Ts&Cs.

Swinging single priced funds (dilution adjustment)

Funds included:

- IFSL Marlborough Balanced
- IFSL Marlborough Bond Income
- IFSL Marlborough Cautious
- IFSL Marlborough Conservative
- IFSL Marlborough European Special Situations
- IFSL Marlborough Extra Income
- IFSL Marlborough Far East Growth
- IFSL Marlborough Global
- IFSL Marlborough Global Bond
- IFSL Marlborough Global Innovation
- IFSL Marlborough High Yield Fixed Interest
- IFSL Marlborough Multi Cap Income
- IFSL Marlborough Multi-Cap Growth
- IFSL Marlborough Nano-Cap Growth
- IFSL Marlborough Special Situations
- IFSL Marlborough UK Micro-Cap Growth
- IFSL Marlborough US Multi-Cap Income

When there are more investors buying units/shares in the fund than selling, there may be occasions when we adjust (swing) the single price upwards. If there are more investors selling than buying, there may be occasions when we swing the single price downwards. This adjustment will cover the transaction costs of buying or selling underlying assets. Transaction costs can include dealing commissions, any transaction

taxes and the market 'spread' on the assets.

The aim of swinging a price is to protect existing investors by absorbing the transaction costs associated with a large investment entering or exiting the fund. As the requirement to swing the price is directly related to the overall subscriptions and redemptions in the fund, it is not possible to accurately predict when or how often dilution will occur in the future.

How are costs and charges applied?

The initial charge, if applicable, is taken from your initial investment amount. The ongoing charges, including the Annual Management Fee, Trustee fees/ Depositary fees, auditors fees and Transaction fees, are taken from the fund's assets and are reflected within the unit/share price.

There may be taxes which you are liable to pay as part of your investment. These costs are not paid via the fund and it is your responsibility to understand your tax liabilities. IFSL do not provide tax advice and you should therefore consider the impact of tax on your investment carefully and, if in any doubt, seek professional advice before making any investment decision.

Further information relating both to the fund costs and potential tax implications can be found in the Prospectus.

Cancellation Rights

If you have received investment advice we will send you a letter detailing your cancellation rights. Further details regarding cancellation rights are set out at section 14 of the Ts&Cs.

Investment Advice

IFSL does not provide investment advice, tax advice or legal advice. You should therefore consider the terms of investment in any fund carefully and, if in any doubt, seek professional advice before making any investment decisions.

What is an ISA?

An ISA is a scheme of investment managed in accordance with the ISA Regulations under terms agreed between the ISA Manager and the Investor (IFSL Ts&Cs).

Income and gains generated by ISA investments are exempt from any further UK income tax as well as capital gains tax in the hands of the investor.

Anyone aged 18 or over may invest in a Stocks & Shares ISA, provided they are resident in the UK for tax purposes. This includes members of the armed forces, the Foreign Office and other Crown employees together with their spouses or those in a civil partnership overseas.

There are various different ISA types available however IFSL only offer the Stocks and Shares component in the form of funds it manages, although you may open different ISA types with different providers. Each tax year you may only open one Stocks and Shares ISA.

You may also transfer existing ISAs from previous tax years between providers without affecting your current year's allowance.

You can invest up to £20,000 in the 2022/2023 tax year in our Stocks and Shares ISA, providing you have not already contributed to another Stocks and Shares ISA this tax year. The £20,000 allowance is the total amount you can contribute between all ISA types within the same tax year. This

includes other ISA's held elsewhere by you. You are responsible for ensuring you keep within the allowance.

Further details concerning the terms and operation of ISAs can be found in the IFSL Ts&Cs, including opening an IFSL ISA (section 5.6) and transferring an existing ISA to IFSL (section 5.10).

Yes. You may transfer an ISA in accordance with section 5.10 of the Ts&Cs.

How does tax affect my ISA?

Any capital gains or income from investments in an ISA are free from income tax and capital gains tax. If your fund pays interest on distributions they are paid without deduction of any tax. If your fund pays dividend distributions they are also paid without deduction of any tax.

Are there any additional risks associated with investing in an IFSL ISA?

All investment involves risk. Your capital is at risk. In addition, there are different risks associated with the specific fund(s) you choose, and these risks can be found in the relevant Prospectus and the KIID. You should not invest in a fund unless you have fully understood the risks associated with such investment and determined that an investment in your selected fund(s) is suitable for you. In addition, it should be noted that the favourable tax treatment given to ISAs may not be maintained. The rates of and relief from taxation depend on your own circumstances and may change over time.
